MOSAIC MESH

45MESH 8.41 9.25 IncGST
Mosaic fibreglass mesh. 1 x 3metre roll.

HOW TO USE MESH:

To create a mosaic pattern on a wall can be difficult. The easiest way is to create the design beforehand on a table using a sheet of mesh that you then put up so that the tiles don't slide down as the glue cures.

Tip: Place a sheet of baking paper on your work table so that you don't accidentally glue the piece to the table. It may be easier to match up smaller sheets for the overall design rather than try and handle one big sheet, this will also help with the weight when trying to mount the artwork vertically.
